The following subject areas have new posts or reminders.

- Academic Affairs
- Campus Affairs

This email will be archived in the Executive Documents Folder on the J-Drive for future reference.

🎯 Academic Affairs

Faculty members from each degree program will be bringing the **components** associated with their Student Learning Outcomes to the next faculty meeting.

Some assessment officers have requested examples to help with the process of assigning components to the SLOs created during **Faculty Workshops**.

A document titled **Component Examples for SLOs** can be downloaded from the Assessment Documents folder on the J-Drive. All faculty members, in addition to assessment officers, will find these examples relevant as they contribute to the component-creation process.
Financial advising appointments with the TIAA-CREF representative will be held in the Karen Boyle Break-Out Room in Harmon.
