Adopt-A-Class:

Give the gift of learning. Supply 3 to 5-year olds in Head Start with finger paints to improve their motor skills; give games and puzzles for added fun in before- and after-school programs; help aid the healing of kids and teens in counseling and support groups with journals and notebooks; ensure every youth in the Emergency Shelter or foster care has the tools for school; and supply teens living in the Transitional Living home with the resources to complete their education.
