Students Honored For Work Achievements

December 12, 1994 St. Charles, Mo.—One hundred forty-nine students were honored for their work achievements at the annual Lindenwood College Fall LindenLeader Banquet on December 7.

The banquet recognizes outstanding student workers and their commitment to their Work and Learn assignments during the semester.

The LindenLeader Program was founded in 1991 to honor students who display leadership and commitment to their Work and Learn assignments. Work and Learn is a practical work experience under faculty, staff, and/or administrative supervision. Students are assigned to offices, departments and buildings, receiving vital "hands-on" experience. The program helps students defray the cost of their college education, develop a sense of the importance and dignity of working, and earn valuable work experience to build credentials for entrance into the public job market upon graduation.

Lindenwood, founded in 1827, is an independent, liberal arts college offering more than 50 undergraduate and graduate degree programs on a residential campus in St. Charles and at locations in St. Peters and Westport.
