Columbia, Sept. 7, 1833.

THE ELECTION.

We have received information from Jefferson City, that the official returns of all the votes for Member of Congress, give Bull a majority of 42 votes. We shall wait until our next for the official statement of the votes in each county. In the mean time, we give the following abstract, which we believe, will not vary much, if any, from the official account, viz:

Bull, 3,672
Strother, 3,630
Shannon, 3,430
Birch, 2,100
Sibley, 392

Dr. Bull is therefore elected by a majority of 42 votes over Col. Strother—242 over Judge Shannon,—and fifteen hundred and seventy-two over Birch.

The editor of the Monitor, after announcing the election of Dr. Bull, says "he is satisfied!!" Very prudent—whether sincere or not.
